* These are **required** support courses which may also be used to satisfy the indicated Distribution requirements. A student may choose to fulfill Distribution requirements with courses other than the ones listed, but these listed courses must still be taken.

Note: If a course is used to satisfy two or more requirements, (for example, a support course and a distribution elective), the credits are counted in only one place. Using a course to satisfy more than one requirement does **not** reduce the total credits required for graduation.

+ As part of the credit specified for sociology electives, it is required that at least one course be selected from each of the following areas: African-American Studies and Cultural Diversity. Also, at least 6 hours, and no more than 3 hours in any one semester are normally allowed to be chosen from the following three courses: SOC 40, SOC 520, and SOC 530. Consult with the Chairperson.
